## ***SPEEDFIT***

Everyone plays differently, so we measure; your swing speed, club-face impact, club/ground interaction, your hand span, your height, and your hand-to-floor measurement in order to find the right specification for your game.

The next few pages detail the technical specifications and components available for your next SpeedFit experience.

Make an appointment at a SpeedFit Centre to be expertly assessed and to ensure you get the perfect custom-fit clubs for you and your game.

## IRONS

- > Satin Plated 431 Stainless Steel which adds a far superior feel at impact than ever before.
- > Heat Treatment process is used on the face that produces a Characteristic of Time (CT) value as close to the 239  $\mu$ s legal limit as possible.
- > A distinctively thinner top line, coupled with a reduced offset angle gives a crisp look at address.
- > New weight distribution design pushes more weight towards the toe, increasing the sweet spot.

# LAMKIN® GRIPS

LAMKIN SONAR+

Sonar+ grip blends Lamkin's microtexture Fingerprint Technology with super-tacky Genesis Material in a reduced taper shape to promote lighter grip tension for a more fluid and consistent swing.

LAMKIN CROSSLINE

Tour-proven performance, classic looks and excellent feel, the Crossline has been one of Lamkin's best-selling grips for over 20 years. Also popular on the PGA Tour, Crossline features a highly-durable compound and best-in-class torsion control for improved shot-making and confidence.

LAMKIN CROSSLINE BLACK

For players who prefer everything about Crossline but want a stealthy look in addition to performance. Crossline Black offers unbeatable value with the same attributes of the traditional Crossline.
